

## 2003 PRODUCTS

### TELEVISION

**HDLP50W151**  
**DLP EXCITEMENT:** The RCA Scenium HDLP50W151 is a 50-inch (diagonal) widescreen HDTV utilizing Texas Instruments' second-generation DLP

technology to deliver sharp, clear picture performance in a dramatically designed, lightweight cabinet.

**20F670T**  
**ADVANCED ALERT:** The RCA 20F670T 20-inch (diagonal) direct-view color TV is among a series of "Alert Guard" models designed to provide consumers with peace of mind by monitoring and relaying emergency alerts in the event of localized or national disasters.

### DVD

**DRC8000N**  
**RECORDABLE DVD:** The RCA DVD Recorder allows consumers to record their favorite television shows and home videos onto a DVD, and also plays back JPEG-encoded discs.

**DRC7005**  
**HARD-DRIVE DVD:** The RCA Digital Media Recorder has a 40GB hard drive for recording favorite programs, and incorporates a progressive scan DVD player.

**DRC310N**  
**COMPACT DVD:** The RCA Slot Load DVD Player features progressive scan, a compact design and several playback options.

### AUDIO

**RD900W**  
**PC-FREE mp3:** The RCA LYRA Wireless system digitally transmits PC-stored digital audio files to home stereo systems.

**RD2780**  
**mp3 PLUS VIDEO:** The RCA LYRA A/V Jukebox stores and plays audio, video and JPEG files for a complete digital entertainment experience.

**RD2821**  
**STORAGE FOR mp3:** The newly designed RCA LYRA mp3 Jukebox has 20MB of storage for digital audio or other computer files.

**RS2302**  
**MUSIC MANAGER:** The RCA Shelf System with exclusive NEO-5 Technology lets users quickly view and easily manage five discs.

**RD2760**  
**MINI-JUKEBOX:** The RCA LYRA Micro Jukebox delivers 1.5GB of digital audio entertainment in a miniature package.

**RTD750**  
**MOVIES AND MUSIC:** The RCA Home Theatre Music Jukebox rips CDs without a PC and includes an integrated DVD player.
